TAKING GOD AT HIS WORD

OPERATING BY FAITH MAKES BUSINESS MORE EXCITING

I HAVE TO ADMIT that I was a little naïve jumping into this additional calling. God clearly said, "Go!" and we had to trust Him about many things in starting Liberty's Station. For one, that there truly was a need for this type of job training program for individuals experienc-

ing employment obstacles. I never realized how big a need this is worldwide! I researched the staggering stats (The largest minority group in the world are those with a disability; 6% of Americans have a disability; 80% of adults with a disability are unemployed; 90% of adults with autism are unemployed). But it wasn't until I began speaking with parents that I realized the potential impact this program could have. We currently have sixteen interns training, three are now employed in the community, four are ready to launch soon, and two new interns are starting the onboarding process!

We've realized that although we work really hard to try to be self-sustaining through serving lunch, event space rental, and retail, that won't be enough to break even for a while. God is our source and sufficiency and He works through people to fill in our deficiencies, and He's never late (nor ever early).

We can greatly benefit from an increase in monthly donors, repeat customers and renters of our great spaces and kitchen. Please stop in and experience what God is doing! Praise the Lord that we have a great board, staff, volunteers and interns making it all happen! And besides supporting a great cause, our food and coffee really are delicious!
